

SAFETY, RELIABILITY, AND PERFORMANCE

Your Trusted Source for Fluid Handling & Transfer Solutions

GREEN Access & Fall Protection

Railcar Loading Platforms | Truck Loading Racks | Gangway Products

When it comes to industrial safety, you need more than just equipment—you need a partner who delivers customized solutions, compliance with safety standards, and unmatched reliability.

Tailored Solutions: Unlike off-the-shelf options, our designs are customized to meet your specific operational needs, ensuring seamless integration and enhanced performance. **From concept to design, we actually measure for these products, beginning directly at your site.**

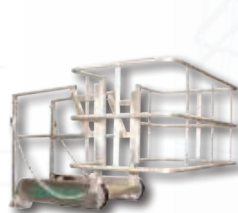

Expert Engineering: Our team brings decades of experience in designing safe access and fall protection systems, prioritizing efficiency and compliance with OSHA standards.

Ease of Installation: Every product is designed for straightforward setup, saving you time and reducing downtime.

MADE
IN THE
USA

Made in the USA: Quality you can trust, built to last.

Readily Available: In-stock solutions to keep your operations running smoothly.

Gangway:

Gangway: 'Elite Series'
Self-Leveling Stairs

Excel Loading Systems

From Concept to Production, we deliver customized loading arm solutions tailored to your facility's unique piping and space requirements. Designed for precision, safety, and durability, Excel's loading arms set the standard for fluid transfer.

Designed for Safety: PFS Spring Assembly ensures safe adjustments and reliability in the field. The enclosed spring cylinder adds an extra layer of protection.

Ease of Maintenance: The XL-1.0 Swivel boasts a split flange design, allowing for seal replacement without welding or removing ball bearings. Built for high durability in oil & gas, food, and chemical industries.

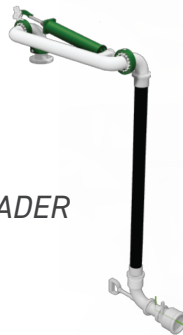

Proudly Made in the USA: Manufactured with 100% USA components for consistent quality and traceability.

Readily Available: Fast turnaround times to meet your operational needs.
